

Leading Products to Support Your Industrial Fluid Power Applications

- Hydraulics
- Pneumatics
- Lubrication
- Automation
- Electronic Controls
- Fluid Conveyance
- Gearboxes & Reducers
- Instrumentation

MORRIS

An APPLIED Fluid Power® company

Let's Partner to Build a Better Solution

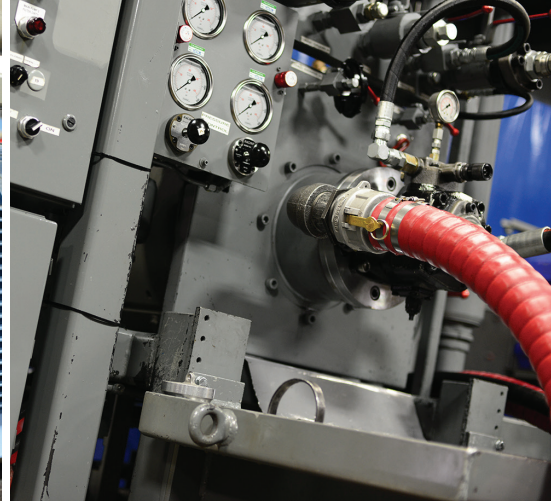

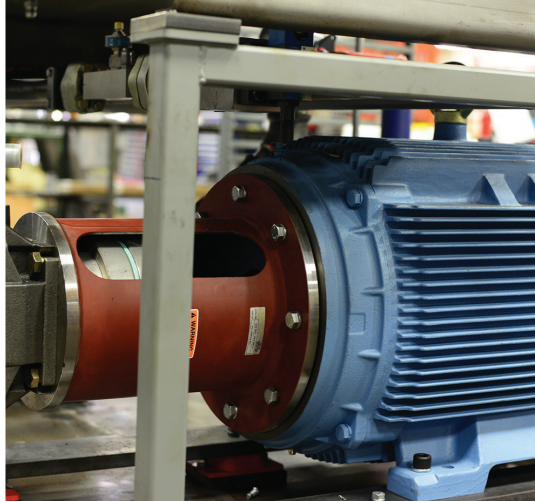

An APPLIED Fluid Power® company

At S.G. Morris, Our Fluid Power Experience can be your Competitive Advantage. Together, We Can Engineer Solutions That Exceed Your Expectations.

We build, customize, repair and service the critical components that keep you going. At S.G. Morris, not only do we know fluid power, we make it our business to know the details about how your operation runs. We are your full service integrator for Hydraulic, Pneumatic, Motion Control, Lubrication and Electronic Controls Solutions.

We Provide System-Level, Electro-Hydraulic Solutions For Mobile and Industrial Applications.

We're far more than a supplier of world-class components, S.G. Morris is an authorized Eaton P1 Integrator – providing the industry's broadest electric and hydraulic portfolio. Our depth of engineering leverages a vast expert application, engineering and design integrator network to help manufacturers specify and design complex electro-hydraulic power management solutions for even the most challenging industrial and mobile applications. It is an improvement in technology to provide one point of control for the performance of the machine.

We Support Your Hydraulic Power Needs – from Simple To Complex

We design, build and test a broad range of application-specific hydraulic power units in an ISO 9001:2015 environment to support the most demanding operational requirements. Whether it is one standard unit or multiple custom-engineered systems, you can rely on our extensive industry experience, thorough quality control process and rigorous testing.

We Service and Repair Everything We Sell

Call S.G. Morris for repairs on pumps, valves, motors, cylinders, proportional and servo valves and mobile valve stacks. Our expert team of Certified Industrial Hydraulic Mechanics are ready to assist you.

We're a Factory-Authorized Warranty and Service Center

S.G. Morris is an authorized Warranty, Service and Repair Center for the following brands:

- Eaton Hydraulic Warranty Authorized Repair Center
- Oilgear (Warranty and Service Center)
- Berarma (Warranty and Service Center)
- Ross Controls (Warranty and Service Center)
- Parker Mobile (Warranty and Service Center)

We Make Training a Top Priority

We're far more than a valued supplier, we're an industrial training institution. At S.G. Morris, we make it our priority to help customers stay current with industry innovations and emerging technologies. Ultimately, relevant training works to reduce unplanned downtime and save your operation money.

We offer a full line of standard and customized Fluid Power, Safety and Lubrication training courses. Contact S.G. Morris Toll-Free at (866) 746-6774 or visit sgmorris.com/services/training for more information.
